Foreword

Dear Colleagues

We are pleased to invite you to the First International „Aesthetics And Art“ Symposium, which will take place in Zurich, Switzerland at The Dolder Grand Hotel from August 10th through August 11th, 2018.

Leading experts in their fields from Europe, North America and Asia are invited to discuss and present the latest techniques and innovations.

All aspects of the face will be discussed and highlighted, including minimal invasive aesthetic surgery, hair restoration and facial rejuvenation using lasers. Moreover, ethnic differences in the field of aesthetic surgery of the face will be presented by experts from around the globe. Additionally, the Symposium will be supplemented by an art exhibition, emphasizing the essence of combining art and science in the field of aesthetic surgery. Last but not least, Dr. Jan Poëll, former president ISAPS from 2010 – 2012, will report on his impressive humanitarian plastic surgery missions in Burkina Faso.

We are convinced that this Symposium will be a highly educational, memorable, and "not-to-be missed" event.

We hope this will be a great opportunity to debate the latest innovations in the field of aesthetic face surgery, and to build new collaborations and friendships.

We look forward to welcoming you in Zurich, one of the most beautiful cities in the centre of Europe

Ursina Hasler

Ursina Hasler was born in 1973 and studied Art and Visual Communication in Zurich in 1999. In her paintings, Ursina Hasler mainly focuses on the facial expression of women, trying to reveal the various stories of that particular person. The goal of these emotional expressions is to provoke an emotional response in the viewer.
