Dr. Milos Kovacevic, Hamburg, Germany
Dr. Dr. Georges Stergiou, Zurich, Switzerland
Dr. Mathias Tresp, Zurich, Switzerland
Dr. Dr. Florian Thieringer, Basel, Switzerland

1st Zurich International Preservation Rhinoplasty Livesurgery Workshop 2019

Foreword

Dear Colleagues

We are pleased to invite you to our first International Preservation Rhinoplasty Livesurgery Workshop in Zurich 2019 on November 1st.

The aim of this intense one-day Livesurgery course is to get familiar with the most common techniques in both open and closed Rhinoplasty. Moreover, a major focus will be on **Preservation Rhinoplasty**, currently a “hot-topic” in the field for Rhinoplasty.

The Rhinoplasty Livesurgery Workshop will be held in a very small group of maximum 9 attendees, and between the surgeries innovative lectures will be given by masters in this field, including 3-D analysis and virtual planning to give the attendees a holistic approach in planning and performing rhinoplasty.

This course will be conducted with Prof. Yves Saban from Nice/France, Dr. Valerio Finocchi from Rome/Italy, and Dr. Milos Kovacevic from Hamburg/Germany, all pioneers in Rhinoplasty and especially for Preservation Rhinoplasty.

Attendees will have the opportunity to observe the surgery in real time, and to ask questions to the surgeon during the surgery. This workshop is supported by the European Academy of Facial Plastic Surgery (EAFPS) and Rhinoplasty Society of Europe (RSE), and attendance certificate for Preservation Rhinoplasty will be delivered to all participants at the end of the workshop.

We are convinced that this Zurich Livesurgery Rhinoplasty Workshop will be highly educational, memorable, and should not be missed.

We look forward to welcoming you in Zurich, one of the most beautiful cities in the centre of Europe.

Dr. Dr. Georges Stergiou, MD, DDS
